## Fabrication of Lightweight Aluminium Metal matrix composites and validation In Green vehicles

On the 14th of September, the Review meeting of the FLAMINGo project took place. At the end of the meeting, the Project Officer by the European Commission expressed his satisfaction with the activities that have been implemented in the first 18 months of the project and provided valuable feedback. The meeting took place at the Veneto Region Brussels office in Etterbeek, Brussels, and was organized by the FLAMINGo Coordinator, MBN Nanomaterialia.

All 11 partners (MBN, DGI, KAMP, ALKE, ISQ, EWF, Global Factor, AXIA, EXE, Constellium, and BRUNEL) presented the work that have been carried out in the first reporting period of the FLAMINGo. WP2 "Specification and Requirements" and WP3 "Production of Al-MMC masterbatches" has been successfully completed. Work packages for the topology optimisation, casting, demonstration activities, LCA as well as exploitation, and dissemination are still in progress. By the end of the first reporting period, WP6 "Extrusion production methods" is starting led by Brunel University of London.
