

FLAMINGo

Fabrication of Lightweight Aluminium Metal matrix composites and validation In Green vehicles

FLAMINGo consortium gathered together on the 8th and 9th of March 2023, where our project held its second annual meeting at the premises of our partner Österreichisches Gießerei Institut (ÖGI). For two days the partners of FLAMINGo met and discussed the progress of the last six months, exchanged feedback and defined the next steps for the upcoming period.

7th PRESS RELEASE

26M FLAMINGo meeting

Leoben, 8 - 9 March 2023

FLAMINGO

Fabrication of Lightweight Aluminium Metal matrix composites and validation In Green vehicles

The 1st day included a first overview of the project status by our project coordinator Dr. Alvise Bianchin (MBN). Each Work package leader presented the active tasks and activities implemented in the last months, covering the technical as well as non-technical work for the achievement of all the project's objectives.

Figure 3: Presentation during the second day of the meeting

The 2nd Day of the meeting was dedicated to internal trainings on Nanosafety and extrusion, which were conducted by ISQ and Constellium. In order to finalise the day, the consortium visited the ÖGI facilities, where they had the opportunity to have an insightful look into their R&D activities for the FLAMINGO project.
