## Data Management Training Seminar By AXIA Innovation and EXELISIS

On June 2, 2021, the Exploitation and Dissemination partners of the Horizon 2020 FLAMINGO project, [AXIA Innovation](#) and [EXELISIS](#), organized a Data Management Plan Training Seminar with the participation of the [FLAMINGO Project H2020 Consortium](#).

AXIA Innovation and EXELISIS collaborate and are responsible for the Business Plan activities and the Dissemination & Communication action plan of the FLAMINGO project. One of their responsibilities is the Data Management Plan of the Project.

This training session aimed to increase the awareness for the Data Management Plan and help the partners to define and handle properly the expected data to be produced within the project.

Partners were informed about the target points of the European Union through the research activities, the obligations related to the research data, and the scientific publications under H2020 and the Data Management Plan for the FLAMINGO.

Specifically, the seminar focused on:

- The EU regulation related to the H2020 research results and the Open Access to Scientific Publications and Research Data,
- The general principles of the Data Management Plan (DMP) and,
- The suggested DMP strategy to be followed in the FLAMINGO project.

The screenshot shows a video conference interface. On the left, a presentation slide is displayed with the FLAMINGO logo at the top left. The slide features a wireframe image of a car and the text 'PRESENTATION' and 'Title: Data Management Plan training seminar'. At the bottom of the slide, it states: 'This project has received funding from the European Union's Horizon 2020 research and innovation programme under the grant agreement number 101007011 5/21/21 DMP Training Seminar'. On the right side of the interface, the logos for 'exelisis' and 'AXIA INNOVATION' are shown. Below these, a grid of video feeds shows several participants. A sidebar on the far right lists participant initials: AL, RG, TP, CK, JM, and others.
