

FLAMINGO

Fabrication of Lightweight Aluminium Metal matrix composites and validation In Green vehicles

Deliverable D 9.6
Detailed training plan and material design

Lead Beneficiary

EFW

Delivery Date

July 29, 2022

This project has received funding from the European Union's Horizon 2020 research and innovation programme under the grant agreement number 101007011

Publishable Executive Summary

Task 9.6 “Training activities” aims at organising and carrying out several training and dissemination workshops. For this purpose, a set of materials, like training manuals and guidelines will be developed and prepared, with the inclusion of a database of videos and photos will also be created, with the assistance of all partners, to facilitate training.

The training workshops will be organized for two different targets, internal training (aimed at staff of the project partners) and external training (aimed to stakeholders, early adopters, and students).

This document reports on the scheduled training activities, with a preliminary description of the content of the training courses and the respective partner responsible for delivering the training
